Testimonial

Tim Pitot - Sound Supervisor

Harry is a superb sound recordist - capable in any environment, and up to any technical challenge.

His low impact style and easy going nature on set work to put both on-camera talent, producers and directors at ease, knowing their shoot audio is in safe hands, whatever they throw at him.

I have had Harry as part of my team, and covering me as HOD for over 12 years, and wouldn't hesitate to recommend him for any job.
